

Turfing

Laying lawn turf is one of the simplest ways to remedy a tired, shapeless patch of grass or to create a new lawn.

Love That Lawn, based in Sandhurst and Camberley, can provide this service throughout Hampshire, Berkshire and Surrey.

Sometimes, a lawn just can't be saved.

We can supply and lay a brand-new lawn, no job too big or small, and re-level an old, tired lawn with a brand-new look. We can landscape your ground and turn it into a beautiful, usable space, providing you with the best quality turf at an affordable price.

What's more, throughout the season we can help with a 6-step lawn care plan, aeration and scarification.
